

Information of the course on **Mathematical Methods (MA512)** at IIT Ropar, India
(First semester, A.Y.: 2024-2025)

Course instructors

- Prof. Manoranjan Mishra
- Dr. Manmohan Vashisth (Course coordinator)

Teaching assistant

- Sahil

Course contents:

- Fourier Series, generalized Fourier series, Fourier Cosine series, Fourier Sine series, Fourier integrals.
- Fourier transform, Laplace transform and their applications to differential equations.
- Z-transform, Hankel transform, Mellin transform and their properties.
- Concept and calculation of Green's function, Approximate Green's function, Green's function method for differential equations.

Class and tutorial timings for the course:

- Monday, 10:00 AM to 10:50 AM
- Tuesday, 10:00 AM to 10:50 AM
- Wednesday, 10:00 AM to 10:50 AM
- Tuesday, 8:00 AM to 8:50 AM (Tutorial)

Credit system for the course:

- 20 marks for class tests. There will be two class tests of equal marks each.
- 30 marks for mid-sem exam. Mid-sem exam will be as per institute schedule.
- 50 marks for end-Sem exam. End-sem exam will be as per institute schedule. End-sem exam will contain the whole syllabus, taught during the course.

Grading and attendance policy:

1. There will be relative grading with a minimum threshold for A (Outstanding), D(Marginal) and NP (the Audit pass) grades as per the criteria given below.
 - (a) The minimum percentage for the award of an "A" grade is 80%.
 - (b) The minimum percentage for the award of "D" grade is 30%.
 - (c) The Audit Pass "NP" is awarded if the student's attendance is above 75% in the class and he/she has obtained at least a "C-" grade.

2. Attendance policy is as per institute rules.

Note: Based on circumstances above evaluation scheme may change.
